

- From wet waste to pure energy

Waister 15 Technical Data

Technical Data

Model	Hopper size	Power consumption	Size	Power supply
Waister 15	450 l (inlet capacity)	0,9 kWh/kg water removed	H=1,99 m, W=0,99 m, L=2,40 m	400 V 50 Hz - 25 A

Installation site

- Power supply 3-phase 400V, 50Hz, 25A with ground and neutral. Electric cable is 4 m long.
- Water inlet with ball valve. Dimension $\varnothing 15\text{mm}$, Pressure max 6 bar.
- Condensate outlet. Dimension $\varnothing 25\text{mm}$, to be mounted with siphon
- Water outlet. Dimension $\varnothing 15\text{mm}$
- LAN, Wifi or 4G for remote connection
